Severe Tropical Storm DOMENG (JANGMI)

Issued at 5:00 AM, 30 May 2026

Valid for broadcast until the next bulletin at 11:00 AM today.

TRACK AND INTENSITY OUTLOOK

- **It must be emphasized that heavy rainfall and severe winds may still be experienced in localities outside the forecast confidence cone. Refer to "Other Hazards affecting Land Areas" for more details. Furthermore, the track may still shift within the limit of the forecast confidence cone.**
- Severe Tropical Storm DOMENG is forecast to move northwestward beginning this morning or afternoon until tomorrow (31 May) before recurving towards southern Japan for the remaining forecast period. This tropical cyclone is less likely to make landfall over the country. DOMENG will likely exit the Philippine Area of Responsibility (PAR) by Monday (01 June).
- DOMENG will continue to intensify and may reach typhoon category tonight or tomorrow morning while remaining over the Philippine Sea. Afterwards, it will steadily weaken but will remain as a typhoon throughout the rest of the forecast period.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 11:00 AM today.
